*effectPerformance*

Instructional design solutions for your learning and performance needs

### BIO:

Stacie Comolli is an educational consultant for effectPerformance, Inc. She holds an M.Ed. in Instructional Systems from Penn State University. Stacie specializes in designing learning solutions with measurable impact. She strives to match individual performance with desired business results. She has designed interactive multimedia-based learning solutions, engaging instructor-led workshops (including interactive media when applicable) and tools and job aids to anchor new skills to the job. Stacie works with clients to learn as much as possible about the nuances of their business and needs, so every solution leads to performance improvement.

### ROLES:
